Demand — posterior view

Final subscription as a distribution. The 80% interval is the honest width of what is still unknown.

Category	Now	Posterior median	80% interval	Confidence
NII	0.22x	0.88x	0.70x – 1.12x	94%

Category	Now	Posterior median	80% interval	Confidence
QIB	0.03x	0.08x	0.06x – 0.10x	91%
RETAIL	1.14x	2.14x	1.82x – 2.51x	97%

- Likely range: -6.1% to +10.7%
- Probability of a positive listing: **61%**

Allotment odds

Apply as	Lots	Capital blocked	Mechanism	P(allotment)	E[shares]
RETAIL	1	₹14,916	lottery	61.3%	27
RETAIL	13	₹193,908	lottery	61.3%	27
sNII	14	₹208,824	full	100.0%	616

Retail is a lottery here: every winner gets exactly one lot, so a larger bid on one PAN does not improve your odds. Additional PANs do.
